

Subject: Application for Support Engineer Position

Dear Hiring Manager,

I am writing to express my genuine interest in the Support Engineer position within your team, as advertised. The dynamic responsibilities associated with application troubleshooting, debugging, and the emphasis on analytical skills align seamlessly with my background and aspirations.

Currently in my fourth year pursuing a Bachelor of Technology in Computer Science & Engineering at Goel Institute of Technology and Management, Lucknow, I have acquired a robust foundation in problem-solving and technical skills. My proficiency extends to various programming languages, including Python, Java, and more, making me well-equipped for the challenges inherent in the Support Engineer role.

During my Java Full Stack internship at TekNavigators, I gained practical experience in full-stack web development, further developing my problem-solving capabilities. Additionally, I have explored data visualization, machine learning, and computer vision through internships and personal projects, showcasing my versatility in addressing diverse technical challenges.

I am confident in my ability to fulfil the outlined responsibilities of the Support Engineer role, including application troubleshooting, script writing, and working with relational databases. My familiarity with DevOps, the Agile Change life cycle, and ITIL provides me with a well-rounded foundation for this role.

In addition to my technical skills, I bring a commitment to excellence, strong communication skills, and a proactive approach to problem-solving. My achievements, including Google IT Support and Google Data Analytics certifications, underscore my dedication and drive to excel in both academic and extracurricular activities.

I am excited about the prospect of contributing to your team's success and would welcome the opportunity to discuss how my skills align with the Support Engineer role. Attached is my resume for your reference.

Thank you for considering my application. I look forward to the possibility of interviewing with your team. Please feel free to contact me at +91 8104071936 or beyash08@gmail.com to schedule a conversation at your convenience.

Sincerely,
Yash Bisht
